DR. BLAKE TO MR. MERRICK.

Hen. Wm. M. Merrick:
Sim: I have perused a pamphlet styled "The Argument of Wm. M. Merrick," which is violently denunciatory of the Boat d of Public Works, and the general tenor of it is to produce an impression that the members of the board are all dishonors. ble men and unworthy of confidence. My atten-tion has been particularly directed to the following paragraphs: "What is the practical remedy for the evils with which we are confronted? I answer promptly, a total reconstruction of the frame of government for this people—a total re-construction and a new and reliable body of agents for its administration, having no constituent of the old frame work in its composition. Unless such an auditing board be established; the faint traces of truth at which you have been able to sale of hay, was read a first time.

Mr. Chairman and gentlemen of the committee, do not suffer unworthy ministrants to remain even in the lowest offices of the outer court of the while I see nothing in your argument or the

testimony I have read that should make me re-gret my associations with my colleagues in the Board of Public Works as honorable gentlemen. I desire to know if I am to understand you as inluding me in the paragraph quoted. Respectfully, your obedient servant, JNO. B. BLAKE.

I am not aware of the length of time during which you have been a member of the Board of Public Works, but if you claim to have been an ctive participant in your official character during Committee, and which have been commented upon in the argument submitted by me, I have no qual-fication to make of the generality of the romaks so which you take exception in the note which ou addressed to me on yesterday.

As you seem solicitous about being held responsible for the action of the Board of Public Works. RECEPTION BY THE YOUNG MEN'S colleagues in the board among some of those you represent, would be visited on me. I have the proud satisfaction of knowing that many of my friends, old and respectable citizens, and large real estate owners, have expressed themselves highly gratified with my appointment. They rightfully believe that no abuses will be tolerated where I have the power to correct them, and if any should exist, and I could not apply a corective, I would unhesitatingly throw up my appointment and not suffer my name to be tarnished The situation I occupy at the Board of Public Works, like every other I have filled, was conferred upon me without any solicitation on my part. I was hundreds of miles from home enjoy-ing a few weeks recreation from the wear and part. I was hendreds of miles from home enjoying a few weeks recreation from the wear and tear of a year's confinement to my responsible duties as the president of the National Metropolitan Bank, when the appointment was made. President Grant, in my interview with him, after my return to Washington, was pleased to say to me that in making the appointment he wished to gratify the people of the District, irrespective of party, and knowing the estimation in which I was generally held among them he had concluded to tender the situation to me. I felt proud of the confidence the President reposed in me, and especially grateful for the kind consideration for my fellow-differs that impelled him to do so, and although fully aware of the sacrifice of permy fellow-citizens that impelled him to do so, and although fully aware of the sacrifice of per-sonal comfort involved in the acceptance of the office, I concluded to assume its responsibilities, to evince my appreciation of his kindness and my confidence in him as the Chief Magistrate of the

stance of the counsel opposed to the Board of Public Works, to appear before the investigating committee. I promptly obeyed the summons. On my name being called I advanced to the witness stand, and after waiting there awhile the honor-able chairman of the committee stated to the counsel that I was present, and inquired if they rished to examine me, and after a pause of a moment or two a begative response was made and I was discharged. It would be manifestly improper for me to offer myself as a volunteer witness, as I am in possession of no information that would shed any light upon the subject of the investigation; and as formy opinion, such supposing it is in consumance with your own, I presume it would not have much weight with the able and learned gentlemen who constitute the committee. dropped. You denounce the board as an "odious body," but I suppose this is only a reflection of your own feelings and of your associates engaged in the prosecution. The regult of the elections in the District, the Board of Public Works and its doings being the prominent points of attack, do not authorise such a canclusion. It looks very much like a previanteeling excited by an apprehended disappointment in the centiusions at which the

Committee may arrive.

IMPORTANT TO THE SENSITIVE.

Fersons with active brains and a delicate organization should never be subjected to violent purgation or any other treatment calculated to prostrate them. Leeching, cupping, starving, and intestinal rasping, are of doubtful expediency in any case, but they are almost certain death to a the sensitive and fragile. What such persons need is stimulation, and the very best invigorant they can take is Hostetter's Stomach Bitters. To give depleting medicines to the nervous, the debillated, the Infirm, the emaciated, the desponding, is like firing broadsides into a sinking ship. Thousands of dysopotics are Rilled every year by medicines that sap the physical and constitutional stamina which, if reinforced by that powerful regetable tonic, would soon prove an evermatch for the disease. It is true that the bowels require to be relieved and regulated, and the liver controlled, as well as the stomach to be toned and the system strongthened; and let it be borne in mind that the Bitters accomplish these objects gently and surely.

To all, particularly invalids, spring is a trying season. Indications of siekness should at once be attended to. Fatal diseases may be caused by allowing the bowels to become constipated, and the system to remain in a discretered condition, uptil the disorder has time to derelop itself. An ounce of prevention is worth a pound of cure, is an old and truthful saying. Therefore, we advise all who are troubled with the complaints now very prevalent—headsche, indigestion, disordered liver, want of appetite, nauses, or feverish skth, to take, without delay, Schenck's Mandrake Pills. We know of no remedy so harmless and decisive in its action. It at once strikes at the root of the disease and produces a healthy tone to the system.
